DO YOU HAVE A CONCERN FOR SAFETY?
Use this standard language and state in a direct and respectful manner:

1. CLARITY
   “I need a little clarity with…”
   If the situation is not paused, repeat the statement with the reasoning that the person may not have heard you. If the situation is still not paused, proceed to step 2.

2. UNCOMFORTABLE
   “I’m uncomfortable with…”
   If the situation is not paused, proceed to step 3.

3. SAFETY CONCERN
   “I’m concerned this is a safety issue. We should pause before…”
   If the situation is not resolved, please notify your supervisor or the person in charge to ensure safety.
