

Cellular & Molecular Basis of Disease Seminar Series

Friday, September 1st 2017

Bette Korber, PhD
Laboratory Fellow & Scientist Level 6
Theoretical Biology & Biophysics Group
Los Alamos National Laboratory

Hosted By: Judy Cannon

“Designing vaccines against highly variable pathogens”

Dr. Bette Korber is an expert in vaccine development, focusing on the design of global HIV vaccines, with several of her vaccine designs showing significant promise in animal studies, and are currently being evaluated in human clinical trials.

Time/Location:

12:00 – 1:00 PM • Fitz Hall • Room 203

The Cellular and Molecular Basis of Disease Seminar Series is sponsored by the UNM HSC School of Medicine, the Office of Research, the Departments of Pathology, Neurosciences, Molecular Genetics and Microbiology, Biochemistry and Molecular Biology, Cell Biology and Physiology, Pediatrics and the Signature Programs.

THE UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
**SCHOOL OF
MEDICINE**

Masthead design: Dr. Jane Rodman
