MAYO GENETICS SYSTEM REPLACEMENT AT MAYO MEDICAL LABORATORIES

GO LIVE: SUNDAY, AUGUST 2, 2015

On Aug. 2, 2015, Mayo Medical Laboratories (MML) will implement two new SCC SOFT modules for genetic testing. This system migration from the Mayo Genetics System (MGS) to SCC Soft Molecular Diagnostics and SCC Soft Cytogenetics will occur after business hours.

AS PART OF THE SCC SOFT MODULES IMPLEMENTATION:

- **Who is impacted:**
  - All clients who order Cytogenetics and Molecular genetics testing.
  - All clients who receive results for Cytogenetics and Molecular genetics testing through the HL7 interface.

- **What is the impact:**
  - MML tests moving to the new SCC SOFT modules will be required to be rebuilt with the new Soft test codes.
  - The changes for the genetic tests affected have been announced through the Test Change Notification process.
  - Genetic test utilization data is available from your MML Regional Service Representative.
  - When validating the new tests with the MML Information Management Quality Assurance testers, please add the verbiage “MGS Test Validation” on the fax cover sheet or in the subject line of the email to peasqalsi@mayo.edu.

WHAT TO EXPECT DURING “GO LIVE”:

- Close all batches by 10 p.m. on Saturday, Aug. 1.*
- Any open batches after 10 p.m. will be closed by MML.
- The MayoACCESS application will be unavailable between the hours of 10 p.m.–Midnight on Aug. 1.
- After Midnight on Aug. 1, all genetic tests affected must be ordered with the new Soft test codes.

- After Midnight on Aug. 1, all old genetic test codes affected by this change will become un-orderable.
  - If you order an affected genetic test code in the interface, the order will be “unbatchable” in MayoACCESS and will require the order to be corrected before the specimen is sent.
  - If you have the generic orderable (GO) option, the new Soft genetic test codes must be ordered in the GO test.
  - You will not be able to manually order the old genetic test code in MayoACCESS.
  - To manage pending results, please use the current process within your laboratory for test changes.
  - All new Soft genetic test results will have an additional PDF enhanced report available in MayoACCESS.

QUESTIONS

If you have further questions about the SCC Soft implementation for genetic testing, please contact Mayo Laboratory Inquiry at 800-533-1710.

* All times listed are Central Time.
