Elevated LGI1-IgG CSF Index Predicts Worse Neurological Outcome

Anastasia Zekeridou, M.D.

POSTER #397
4 p.m.

Seizure Semiologies and Effects of Anti-Epileptic Drugs in Patients with Leucine-Rich Glioma-Inactivated-1 Ligand Antibody (LGI1-Ab) Autoimmune Epilepsy

Christopher Lamb, M.D.

PLATFORM S11
8:16 a.m.–8:24 a.m.

The Mayo Clinic Glial Autoimmunity Study: Persistence of MOG-IgG Seropositivity Predicts Relapse after ADEM in Both Children and Adults

Sebastian Lopez Chiriboga, M.D.

PLATFORM S13
1:36 p.m.–1:48 p.m.

Autoimmune GFAP Astrocytopathy: Prospective Evaluation of 90 Patients in 1 Year

Divyanshu Dubey, M.B.B.S.

PLATFORM S13
1:48 p.m.–2 p.m.

Glial Fibrillary Acid Protein Immunoglobulin G (GFAP-IgG) Related Myelitis: Characterization and Comparison with Aquaporin-4-IgG Myelitis

Elia Sechi, M.D.

PLATFORM S13
2 p.m.–2:12 p.m.

The Mayo Clinic Glial Autoimmunity Study: AQP4/MOG-IgG Serostatus and Outcomes in 228 Patients Presenting with Recurrent Optic Neuritis

Jiraporn Jitprapaikulsan, M.D.

PLATFORM S13
2:12 p.m.–2:24 p.m.
THURSDAY, APRIL 26

The Incidence and Prevalence of Autoimmune Encephalitis and a Comparison to Infectious Encephalitis: A Population-Based Study
Divyanshu Dubey, M.B.B.S.

POSTER #401
5:30 p.m.

Post-Transplant Autoimmune Encephalitis
Devon Cohen, M.D.

POSTER #382
5:30 p.m.

Neurological Paraneoplastic Autoimmunity and Small-Cell Lung Cancer: Clinical and Serological Accompaniments
Anastasia Zekeridou, M.D.

POSTER #408
5:30 p.m.

FRIDAY, APRIL 27

Neuronal Intermediate Filament Autoimmunity
Eati Basal, Ph.D.

PLATFORM S52
4:18 p.m.– 4:30 p.m.

Evaluation of Idiopathic Transverse Myelitis Revealing Specific Myelopathy Diagnoses
Nicholas Zalewski, M.D.

POSTER #417
4 p.m.

The Mayo Clinic Glial Autoimmunity Study: Glial Autoantibody (AQP4/MOG/GFAP) Serostatus in Recurrent Longitudinally Extensive Transverse Myelitis
Jiraporn Jitprapaikulsan, M.D.

POSTER #409
4 p.m.

NEUROMUSCULAR DISEASES

SUNDAY, APRIL 22

Cerebellar Ataxia Renal-Failure Neuropathy with Encephalopathy (mt-CARNE): A New Mitochondrial Syndrome Identified by Sequencing Frozen Nerve and Kidney Tissue DNA
Peng Soon Ng, M.B.B.S.

POSTER #330
4 p.m.– 5:30 p.m.

MONDAY, APRIL 23

Rhabdomyolysis and Fluctuating Asymptomatic HyperCKemia Associated with CACNA1S Variant
Charenya Anandan, M.B.B.S.

POSTER #028
5:30 p.m.
